www.messefrankfurt.comwww.messefrankfurt.ru**Electrical Engineering: Is there any way to combine quality and speed with aesthetics? Find out the answer with Interlight Moscow 2018!**

The open educational venue “Electrical Engineering Academy” brings together activities dedicated to the topic "Electrical Engineering". During the four days of the exhibition, visitors will have an opportunity to get acquainted with the practical cases of companies (IEK, Arlight, Interra, iRidium), learn about the innovations in electrical engineering, automation of buildings and integrated security systems, and take part in forums, seminars and master classes. Strategic Partner of the venue is - IEK GROUP.

During the first day, participants will discuss in details all aspects of smart city infrastructure based on smart lighting technologies. The tone will be set by the Director General of IT Smart City LLC - Mikhail Vladimirovich Mikhelev in the report “Smart lighting as the first step to Smart Cities”. The main discussion will take place during the session organized by the Association of LED and SSL manufactures and GUP “Lensvet”.

Evgeny Teslya - CEO EST Group, Head of Energy Efficiency Committee RGUD - will speak about energy efficiency technologies for the “smart city”.

In contrast with technical part, EEA program will address aesthetic issues: Alexander Maslennikov, lighting designer, co-founder and tutor of the lighting school MPEI Light Lab is to speak on the topic “Lighting design as part of successful project”.

Therewith, we will sum up the following competitions: “Web portal of the Year 2018”, V All-Russian KNX Olympics and “Plugfest – integrators choice 2018”.

During Interlight Moscow 2018 the members of the extended WorldSkills Russia national team will hold a training in such categories as "Wiring" with an additional task for KNX equipment.

The training will be organized with the support of the IEK Group, an official partner of the World Skills Russia. The International KNX Association will provide KNX module. KNX Russia and KNX-User Club of Russia, the CIS and the Baltic States will also support the event.

All-Russian KNX Olympics is the official contest among installers of building automation equipment under the KNX protocol. Each participant will be asked to complete the task of configuring and configuring KNX devices for a while. The winner and awardees of the KNX Olympics will be selected at the least time for the task, taking into account mistakes made during the task. Each error that is committed during the task, adds a penalty time.

The Fair's Fringe program will organically complement the exposition. Here you will find for your projects a wide range of innovative solutions for home, workplace and even more - all to make our lives more convenient and secure. The future is available today! For the fifth year, the professional association KNX International provides official support to Interlight Moscow and organizes a special project on building automation and the smart home - joint KNX booth.

See you in November!
